Education

2025 - Present	MESA SCHOOL OF BUSINESS <i>PGP in Startup Leadership CGPA 3.64/4</i> - Awarded ₹12L (52%) merit-based scholarship, granted to 2 of 142 students selected for performance and initiative. - Built an oxidized jewellery brand making ₹1L revenue in 6 weeks as part of a competitive venture-building program. - Core team member building Mesa's first official case book, contributing to case selection, structuring and execution. - Developed 10+ Agentic AI driven workflows using tools like n8n, Relevance, Lovable, Emergent, Cursor & Colab. Gen-AI Agents & Automations - Built an AI email support agent for Mesa admissions/admin, estimated to cut repetitive manual responses by ~75%. - Designed an AI WhatsApp health coach to automate support and lead qualification, targeting ~60% effort reduction. - Reduced friction from thinking to publishing, enabling consistent, high-signal LinkedIn content for founders. - Converted unstructured customer reviews into actionable CX and product signals, notified via slack and gmail.	BENGALURU
2020 - 2024	INDIAN INSTITUTE OF TECHNOLOGY (IIT) ROPAR <i>B.Tech. in Civil Engineering CGPA 7.7/10</i> - Core Team: Owned event operations and cross-team coordination in the Techno Cultural Fest, Zeitgeist. - Selected to represent IIT Ropar at a national leadership summit alongside delegates from all 23 IITs.	RUPNAGAR

Experience	THE FUTURE UNIVERSITY - Category Manager (Full Time) <i>EdTech startup with an ARR of ~₹60Cr by operating live bootcamps across trading, finance, spirituality & healing.</i>	CHANDIGARH
2024 - 2025	Key Achievements - Generated ₹2.5Cr in monthly revenue across 30+ bootcamps by leading a 15 member team of community managers. - Contributed 40% category revenue within the first 5 months by launching and scaling a new algo-first user funnel. PnL & Category Ownership - Led end-to-end execution for 30+ live bootcamps/month, supporting cohorts between ~300-1,000 learners/session. - Single-point owner for daily category execution, managing and resolving cross-team stakeholder dependencies. Reduced ad-hoc escalations by 50% during live bootcamps by building operating & growth playbooks for the team. Growth & Product Enablement - Partnered with marketing team to reduce cost-per-join by 30%: improved funnel continuity across ads & landing page. Increased Month-0 ROI by 2x with higher overall conversion rates by re-routing leads to higher converting classes. - Shaped TFU's webinar platform by bridging Category & Product to test, iterate, and validate changes in live classes. Funnel & Execution Systems - Built a unified dashboard across marketing, ops & category, reducing cross-team data mismatches by ~30%. Cut weekly reporting effort by ~4-5 hours by automating workflows using advanced Excel and structured queries.	
2023 - 2024	Community Manager, Internship (6 month full time in office, and 6 month remote on-campus) Owned PnL for two trading bootcamps generating ₹24 lakhs in monthly revenue across acquisition & conversion. - Enabled fast & more aligned stand-ups by owning category data, reducing confusion and last-minute execution issues.	

Projects		
2025	SUPERK - FOFO Grocery Retail Chain in Rural Andhra <i>Objective - To make ASM store visits data driven & predictable</i> - Led primary research (7 partners & managers, 20 customers) to identify operational gaps at the store level. - Designed an audit system translating SOPs and store signals into metrics, reducing manual review effort for ASMs. - Developed a new data collection source by building an AI-voice agent to collect NPS from customers via calls.	BENGALURU
2024	Execution Signal Forecasting using Time-Series Data <i>Objective - Predicting Water Quality Status of River Ganga</i> - Built a time-series model to forecast short-term water quality trends and enable early intervention. - Converted multi-year water quality data across 13 locations into actionable Water Quality Index signals.	RUPNAGAR
